It seems a little bit queer that a preacher never finds it incumbent upon himself to preach about civic conditions, except on the eve of an election, but then there are some queer things in the world and you can not always sometimes tell what is going to happen.

It is worthy of note that much interest is being taken in the city election. It is an evidence, if we do not miss our estimate, that the people want no material change, certainly nothing so radical as is proposed by the opposition, disruptionists and growlers.

It does not seem to be especially harmonious among the Democrats of this State. Out at Parkersburg a day or so ago William Randolph Hearst managed to get delegates from that county, but the Democratic official organ of the county enters its serious objection along with the rank and file of the party and there will be something doing if Hearst does not quit the county with his agents.

One of the strange things of life is that any body of people, or any leader of that body, which professes to the sensible and the higher in life, should not look into things as they are before going off half-cocked in favor of something that is rotten at the core with hypocrisy. It does seem that those who are leaders ought to make their soundings (through and they ought to be sure. In other words, they ought to be like Davy Crocker.

The Telegram has ever been loyal to the nominees of the Republican party, no matter who they have been, and that is its policy in the coming campaign. It pledges itself once more to support with all its might the nominees of the party. It has not favorites before the nominations and will not be found showing any preferences. All candidates who announce themselves may depend upon that and they may further depend upon it that they will receive fair treatment by this paper.

The Wheeling Register takes the pains to announce that its chief cook and bottle washer, Mr. Taney, is not for Hearst nor for Cleveland. It may be that there will be a decided change of opinion after Hearst arrives in that city. It remains a day or so. He is said to be irritable at the present stage of the game, but just why has not been fully disclosed, although there is a well-grounded suspicion, since the story got in circulation that he is spending millions to get the Democratic nomination for the presidency.

Several weeks ago, when there seemed little prospect of an extra session of the Legislature, some of the Democratic papers were howling hot about it, and now since there is every prospect of an extra session and the adoption of laws on the tax question, there is a counter howl by those papers just as loud. It is self-evident that the only thing they really had in it was party advancement, and that is characteristic of the leading Democratic politicians. They show it even in a little municipal election and are willing to sacrifice even part for their own selfish interests.

"Boodle and booze" has been a great cry in this county by men who only await the opportunity to use them. Yet they convince some people that they are pure and undefiled in that respect. Those who believe them ought to take the pains to find out about them. There are moralists in Clarksburg, who would scarcely be admitted to a church auditorium, if the membership would only take the trouble to find out how lecherous these same fellows are. And yet these professing moralists go about crying aloud against men, who have reputations and characters that are unblemished. The time is at hand when good people ought to find them out. Do it. There is no very hard work ahead of you in such a task, and then, when you have done so, show them that they must not take the liberty to attempt to impose on you any more. But the fact of the

business is most church people already know them and their ways, and as a consequence they pay no attention to their loud professions but go right along voting for men.

IS CRIME INCREASING.

Few social questions are asked more frequently than, what is the increase of crime? The national census bureau is seeking an answer to this inquiry. It is undertaking to secure a record of all the persons who are sentenced to the various jails, penitentiaries, and other prisons in the United States during the year 1904.

The wardens of the State prisons and the sheriffs of the counties are being requested to act as special agents to report certain facts concerning every person delivered into their custody. Some counties have not been heard from. In some perhaps there are no jails, in others perhaps the local jails are no longer used, in still others the sheriffs have possibly neglected the matter. But the records of the census bureau and the resulting statistics will not be complete until all are heard from, and it is hoped that the pressure of other business will not cause the sheriff of any county to neglect to assist in this most important inquiry.

Makes a Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures burns, sores, bruises, cuts, boils, ulcers, skin eruptions and piles. It's only 25 cent; and guaranteed to give satisfaction by G. Bland, druggist.
